PROFILE

A keen interest in various IT domains. I feel comfortable working both in team or individually. My communication skills let me get along with people very quickly. I am not afraid of taking responsibility. I am ready to invest time and effort in further developing of my skills even during my own time.

SKILLS

JavaScript • TypeScript • Python • Java • C++ • React • Node.js • Express.js • Next.js • Docker • GitHub Actions • SQL • MongoDB • PostgreSQL • Linux • AWS • Bash scripting

WORK EXPERIENCE

Software Developer | Hiava Oy, Finland
01.06.2024 – 05.08.2025

- Developed and continuously updated a new web application designed to support smarter production planning in industrial environments by calculating and visualizing metrics and KPIs. The application is implemented with Next.js with its API Routes, TypeScript, React, MongoDB, Prisma ORM, Docker, and GitHub Actions.
- Worked on existing problematic web application and successfully fixed it using JavaScript, React, Python, PostgreSQL, Docker, and GitHub Actions.
- Maintained the Linux server, where the web application was deployed.
- Collaborated in the group of 3-5 people to set goals, share ideas, and help each other.

Software Development Intern | Hiava Oy, Finland
01.03.2024 – 31.05.2024

- Successfully maintained, fixed, and implemented new features for existing web application using React, JavaScript, Python, PostgreSQL, Docker, and GitHub Actions.
- Maintained the Linux server, where the web application was deployed.
- Collaborated in the group of 3-5 people to set goals, share ideas, and help each other.

Software Development Intern | Tampere University of Applied Sciences, Finland
02.05.2023 – 23.6.2023

- Collaborated within a three-person team to develop a guidebook publishing web application, using JavaScript, React, Git.

More than 5 years in construction as an engineer and as a worker.

EDUCATION

- **Software engineering, bachelor's degree** | Tampere University of Applied Sciences, Finland
  24.08.2021 – 30.05.2025
- **Construction engineer, master's degree** | Izhevsk State Technical University, Russia
  2008 – 2014.
